Show the create new group action

```php
use Wirechat\Wirechat\Panel;

public function panel(Panel $panel): Panel
{
    return $panel
          //...
          ->redirectToHomeAction();
}
```

HomeUrl

Set the redirect url when the home action is clicked

```php
use Wirechat\Wirechat\Panel;

public function panel(Panel $panel): Panel
{
    return $panel
          //...
          ->homeUrl('/dashboard');
}
```

Delete Message Actions

Delete Message actions are enabled by default:

- Delete message for me
- Delete message for everyone

You can disable these actions in the panel.

```php
use Wirechat\Wirechat\Panel;

public function panel(Panel $panel): Panel
{
    return $panel
          //...
          ->deleteMessageActions(false)
}
```
